SPICES

Turmeric prices slipped further on muted domestic buying that resulted into extended profit booking at futures platform. Exports enquires are bleak and likely to remain slow as per export seasonality that will keep market sentiments down for turmeric in near term. Millers preferred hand to mouth buying and avoiding heavy inventory in expectation of further fall in prices. Prices spread between spot and futures shrunk as per expectation and ruled near 1300 points as spot prices of turmeric hovered at 17330 at Nizamabad market. Weakness in turmeric is likely to be limited as weaker production prospects and limited availability of quality produce will spark aggressive buying on every dips in prices. Bleak export demand is still a major concern for turmeric that may cap the gains. Turmeric export from India dropped 7% Y-o-y to 17.43 thousand tonnes in Mar'24 wherein total export during Apr'23-Mar'24 reported at 162.0 thousand tonnes down by 4.7 % from previous year. **Turmeric is likely to trade in range of 18200-19000.**

Jeera futures dropped further with improved supplies on recent gains. Bumper production estimates and heavy stocks with farmers and stockists weighed on prices. Most of the stocks of jeera are still with stockists and they will release their stocks only on better realization. Price spread between spot and futures reduced as per expectation as weakness in spot was comparatively higher due to muted demand. Spot prices of Jeera dropped to 28815 at Unjha market against the 28365 of futures. Spot prices still ruled at premium of about 500 points over futures. Spot prices at Unjha still ruled at premium over the futures that will push the futures prices up as futures have tendency to rule at premium over spot. Export enquires have increased due to global supply tightness that will prompt buyers on every dip in prices. Jeera export from India rose 73% Y-o-Y in Mar'24 reported at 32.12 thousand tonnes. **Jeera prices are likely to trade in range of 27000-30000.**

Dhaniya prices are likely to trade higher due to slow down in arrival. Arrivals dropped with fall in prices and prices found support near 7400 at technical chart. Any breakout below 7400 may pull the prices towards 7000. Heavy carryforward stocks and limited buying by millers will cap the excessive gains in dhaniya. Improved exports are major driving factor for dhaniya as demand from China and Bangladesh has increased that will spark buying on every dips. Overall production of dhaniya is likely to be down by 26% Y-o-Y that will keep the major trend positive in dhaniya. **Dhaniya prices are likely to trade in range of 7200-7650.**

OTHER COMMODITIES

Guar seed futures are expected to trade sideways as expectation of normal onset of monsoon rainfall in year 2024 will put pressure on market sentiments. Weather condition is likely to be favorable to the sowing activities that may lead to rise in area under guar seed. However, it is early to predict as return over cost of cultivation have been comparatively lower for guar. Losses in guar is likely to be limited as supplies has been down wherein export enquires of gum that will lead to rise in guar seed prices as well. Export of guar derivative products rose 40% Y-o-y to 40.7 thousand tonnes in Mar'24. **Guar seed prices are expected to find support around 5300, with resistance seen at 5700. Similarly, Guar gum prices are likely to find support around 10300, with resistance observed at 11200.**

Cotton prices are expected to trade higher on supply concerns. Arrivals are likely to remain down as about 280.6 lakh bales has arrived out of 323.1 lakh bales of production in year 2023-24. **Cotton MCX prices are likely to trade in range of 55000- 57000 Similarly, Kapas Apr'25 futures are likely to trade in range of 1575-1620 level.**

Mentha oil prices are expected to slip further on improved supply condition, as new arrivals are likely to increase in central region. India exported about 309 tonnes of mentha oil during Feb'24 as compared to 210tonnes of previous year showed by government recent release. Arrivals are lower as compared to last year that is likely to support firmness in prices. **Mentha oil is likely to trade in range of 910-940.**

Castor seed prices are expected to trade higher with increased demand against limited availability at major trading centers. Expectation of fall area under castor is likely to support firmness in prices. Crushing demand is likely o improve that will help prices to trade on positive note. Sluggish demand of castor meal and oil will restrict the major gains. **Castor seed prices are likely to trade in range of 5550-5900 levels.**
